course books

3

We receive,
check and
sort the
merchandise

4

We pack
and ship the
boxes to your
recipients'
homes

RECENT PROJECTS INCLUDE

200+ government employees were participating in an online training course. The branded materials given to each attendee included a tumbler, journal, pen and dry erase memo board. Our client also sent us the course books that had to be distributed to most of the recipients. We received and sorted the merchandise, packed the individual boxes and sent them to the employees' homes.

100+ attendees had completed a virtual education event. We printed a personalized certificate for each attendee, provided certificate holders and a gift pen, and mailed the packages to the recipients' homes.
